

# Design and Planning Services – Workflow Transformation

**Derive Healthcare** ([derivehealthcare.com](http://derivehealthcare.com)) is a 20-year, dedicated healthcare solution practice of Derive Technologies, a New York Metro area, national and global **IT business services consultancy**. **Derive Healthcare has supported Workflow Transformation** for some of the world's leading healthcare providers, directly impacting patients at the point-of-care.

From **BCMA** to **Mobile & Mounted Solutions** to **Telehealth**, Derive's workflow transformation solutions are completely scalable — both in scope and cost — to meet the needs of all providers, from large private and public hospital systems to smaller practices.

## Key Business Benefits

- Best Practices regarding challenging areas/units (isolation, ICU/CCU, ED) – exception handling
- Documentation/Charting – patient/bedside initiatives
- Pharmacy, Nursing and barcode medicine administration initiatives
- Physician and numerous healthcare specialty requirements

### PLANNING

- Milestone Identification and Project Plan Development – up to and beyond Go-Live
- Development of Comprehensive Deployment, Training & Support Plans
- Identifying Critical Path Items and Other Obstacles to Success
- Coordination of Technology Fairs, Product Evaluations, Concept Proofs & Pilots
- Able to provide all manufacturer liaison and logistics requirements
- Assistance in developing informational and support materials
- Complete management of device fairs, POCs and Pilots

## Key Features

### DESIGN

- Workflow Development – working hand-in-hand with care-providers, other hospital stakeholders, ISVs

Hewlett Packard is a proud supporter of:

**HumSS**  
NEW JERSEY Chapter &  
DELAWARE VALLEY Chapter
